

Dübendorf, March 2022

Dear parents

The Kinder- und Jugendarbeit der Stadt Dübendorf (KJAD) and a pool of other professionals **IG Idee Jugend**, are concerned with the issues «violence among children and young people» and «vandalism».

These problems are very present in Dübendorf, and perhaps they have already been a topic of conversation in your home.

The city of Dübendorf and **IG Idee Jugend** are alarmed that there are children and young people who violently threaten others, act disrespectfully towards other people, or damage things. We are even more concerned about the victims of these acts.

Therefore, **IG Idee Jugend** has developed preventative measures to counteract this phenomenon with the goal to enhance civil courage and to inform people about contact persons and points.

Civil courage means, that we do not look away, when someone is threatened or in a difficult situation, but we show the courage to support our fellow man.

To raise awareness among the population of Dübendorf there will be a poster campaign. In the secondary school there have been workshops and a survey conducted. In the summer, on Saturday, July 9th, 2022, the KJAD will organize a festival for children and young people.

The city of Dübendorf and **IG Idee Jugend** are committed to a peaceful and clean Dübendorf! On our website [www.duebischauthin.ch](http://www.duebischauthin.ch) and in the flyer enclose you will find support offers.

If you have any questions or requests, please contact us. We are at your disposal!

Best regards

**IG Idee Jugend**
